**DETAILED ACTION**

***Allowable Subject Matter***

Claims 1-9, 12-17 are allowed.

The following is an examiner's statement of reasons for allowance:

After reviewing applicant's arguments, foreign priority translation and conducting an updated search none of the cited prior art alone or in combination discloses the claimed semiconductor device with the structural combination of independent claims 1 and 17.

Regarding claims 1-9, 12-16, 18.

The semiconductor device including among the limitations the semiconductor component substantially completely overlaps a region of the cooling channel that includes the microstructures with an intermediate support arranged between the semiconductor component and the cooling element to compensate for mechanical stresses due to differing thermal expansion and having the beam collimating device and the laser on a common substrate.

Regarding claim 17.

The semiconductor device including among the limitations the semiconductor component substantially completely overlaps a region of the cooling channel that includes the microstructures with an intermediate support arranged between the semiconductor component and the cooling element to compensate for mechanical stresses due to differing thermal expansion, where the intermediate support is formed of
